

Red Dot Magnifier

Red Dot Sights

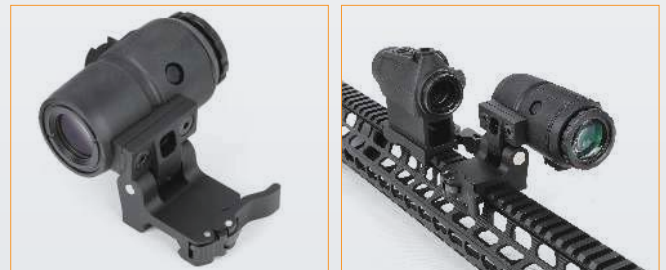

An upgrade from the original magnifier, the Red Dot Magnifier incorporate a substantial improvement with enhanced optics and significantly reduced bulk, offering swift adaptiveness to occasion and tactics. Reinforced with rubber armor for increased reliability. The height-adjustable QD base and optics works effectively with virtually any AR Red Dots.

Magnification	3x	Adjustment Graduation	1 MOA
Objective Size (mm)	22	Field of view (Angle)	7.5°
Parallax	≤1 MOA	Field of view (ft100yds)	39.3
Exit pupil (mm)	7.3	Field of view (m@100m)	13.1
Eye relief (mm)	62	N.w(g)	388

FEATURES

- Pairing with Dot Sight for 3x magnified sighting
- Optimal optics and compact size only 82mm long
- Fully multi-coating for enhanced brightness
- Nitrogen-purged and O-ring sealed for waterproof and fogproof
- Solid CNC machined aircraft grade aluminum body protected with rubber armor
- Horizontal and Vertical adjustment for precision alignment with red dot axis
- Quick-release amount allows fast attach/detach
- Riser-spacer included to adapt for center-height of either 37mm or 40mm
- Flip-to-side mechanism for easy switch between close-engagement and medium-range tactics
- Shock G-force rating of 800G to work with most combat rifle

USING THE FLIP MOUNT

To use the included flip mount, simply apply direct pressure and flip the Magnifier to the left or right side (depending on mounting direction). To return, simply push magnifier back into original position.
