

# 5-2500m Range Finder

The Laser Rangefinders are indispensable aid for long distance shooting, as well as surveillance, forestry management, etc.

- Using high power and precision laser components that measures long distance up to 2500m with accuracy within 1M
- Built-in angle measurement of +/- 60 Degree for shooting or hunting with an angle
- Multiple Modes including measuring in rainy weather
- Switch between yard or meter for distance unit
- Fit for military, hunting, sniping, surveillance, etc

ITEM#	
Distance Measurement Range	5-2500m
Distance Measurement Deviation	±1m
Distance Measurement Unit	Yard / Meter
Angle Measurement Range	60°~60°
Angle Measurement Deviation	±1°
Field of View	8°
Magnification	7X
Objective Diameter	25MM
Exit Pupil Diameter	3.6MM
Golf Mode/Pin Seeking	Optional
Speed Measure	NO
Height Measure	Optional
Display	LCD
Ingress Protection Level	IP54
Battery Type	CR22-9V Lithium
